Mr. Roberto Andrade
325 East 21st Street
Brooklyn
New York

My dear Mr. Andrade:

I have just received your letter of May 28. The information I requested regarding the work by Sr. González Suárez was for a correspondent at Harvard University. In case you secure information now or in the future regarding the work, please communicate with me regarding it. It is not that I desire to secure the work, but that I desire to secure information regarding it. I have just had a letter from the minister of Ecuador, in which he shows great interest regarding the plan and says that it will be forwarded to the government. He mentions the fact, however, that the financial situation of Ecuador at the present time renders it difficult for the government to undertake new enterprises.

With best wishes,

Very cordially yours,

P. H. Goldsmith.
